

## Director's Message

Library is the mirror image of any academic institution. The IMCC Library has travelled from good to great path and focused to continue the status through the effective services and utilization of ICT including digitization, Library automation & networking. Efforts taken by the IMCC librarian in the overall development, not only in administrative but also in the academic domain as well are appreciative. MES IMCC is well known for courses in Computer Applications & Management Science equally due to library & information science.

I wish InfoLib Manager a grand success.

**DR. Santosh Deshpande**

Director, MES's IMCC

## Librarian's Desk

Dear all,

A library carries a basic moto of serving the clientele at its best ! Continuous efforts are being taken by the library in IMCC to improve the status of the service provided to exceed the expectations of the users in MES institutions. The library has taken a lead in automating the functions and services of the libraries in MES institutions with the effective utilization of an open library software initiative-KOHA. The common OPAC created for MES institutional libraries will serve the needs in more focused and effective manner. The work includes knowledge organization as well as preparation of databases as data migration is done before the launching of common OPAC. Now the users can effectively access the collection of entire MES institutions participating in the KOHA project. The library also has been effectively using d-space for providing the digital library services to the faculty, research scholars and the students as well on the campus. The library has also focused on the use of social networking aspects such as blogs (Web ID: <http://mesimcclibrary.blogspot.in/>) and what'sapp medium for creating effective communication with the users.

The entire library team is active in taking lead towards managing the entire IGNOU study centre as well as the YCMOU library science programs in IMCC. The institution has launched prestigious One Year Postgraduate Diploma in Digital Library Management, Automation and Networking (PGDLIMAN) focused on effective utilization of advanced technology such as digital library techniques, automation , programming and networking in the libraries and information centres. The professional colleagues in the library science field are interested in registering for this programme. Since 2015, institution organizes 2 SET NET Training programs every year for LIS professionals to provide guidance to the professionals. The program has become very successful as candidates are registering not only from Pune but also from the varied places of Maharashtra such as Mumbai, Aurangabad, Bhusawal, Nashik, Ahmednagar, Neral, Mangaon, Manchar etc. and many more are coming to attend the training program. The 6th batch has started from 12th August 2018.

Best wishes,

**DR. (Mrs.) Meenal Oak**

Librarian(Selection Grade) & Coordinator , KOHA Project,  
Coordinator, IGNOU Study Centre 16142& YCMOU LIS Programs  
Coordinator PGDLIMAN & SET NET Training Program  
MES's IMCC,Pune

## LIBRARY PROFILE

### Features Available

- ❖ Library Area 2586.12 sq. Ft.
- ❖ Computerization of the library services and functions using KOHA, an open library software
- ❖ Bar Code Technology for the Document Transactions
- ❖ Back Up system based on UPS
- ❖ Library Generated Bar Coded PVC Identity cards & User Borrower Cards
- ❖ Continuous 12.00 hours Daily Circulation and Hall Reading Service
- ❖ Digital Institutional Repository using the D-space open source software for the effective accessibility of the Summer Projects and the Institutional Intellectual output of IMCC
- ❖ Dewey Decimal Classification system for the systematic arrangement of the library documents
- ❖ ILL service to the MES's Institutions
- ❖ Document Recommendation Slips for Faculty as well as Students
- ❖ Biometry for maintaining the daily entry register for the Reading Hall
- ❖ Library LAN and connectivity to Institutional LAN
- ❖ Annual Publishing of Library Newsletter- InfoLibManager
- ❖ Annual Stock Verification
- ❖ User OPAC and access to Project Reports through the IR in the library and on the Institutional Campus
- ❖ Students Database Development and Maintenance and Issuing the PVC Identity Cards to the students and the faculty members of IMCC
- ❖ Distribution of the Identity Cards to the faculty members and database maintenance
- ❖ Conducive environment for study and research in the Library
- ❖ Library Blog
- ❖ Use of LIBQUAL+ for measuring users feedback on continuous basis
- ❖ Service upgradation
- ❖ Swami Vivekanand Section

### Library Services

- ❖ SDI to the Faculty segment
- ❖ CAS to the library users
- ❖ Plagiarism % Testing of the Thesis using Turnitin
- ❖ Digital Library Collection access on Intranet
- ❖ Indexing Services
- ❖ Abstracting Services

- ❖ Current Updates through Display Boards
- ❖ Document Reservation Facility
- ❖ Systematic arrangement of the books using Dewey Decimal Classification edition22
- ❖ Printed Project reports
- ❖ Users study
- ❖ Use Study
- ❖ Add-on card Facility to the Students
- ❖ DLL through DELNET
- ❖ Access to on-line databases ASPP (IEEE) and N-List
- ❖ Reference Service
- ❖ Referral Service

## ICT Infrastructure (2017-18)

SR. NO.	ITEMS	QUANTITY
1	Windows 2k Server With MSSQL, TOMCAT 4.0 Server	1
2	PC Nodes connected in LAN	
	(a) Two node for document transactions (issuing & returning of books) using Barcode Reader	2
	(b) One node for Library documents acquisition	1
3	PC Nodes in LAN for the access of Digital Library Collection (ASPP(IEEE) , N-list by INFLIBNET and digital Institutional Repository documents) for the students	4
3	PC Nodes in LAN for OPAC for the students	2
4	PC Nodes in LAN for OPAC and accessibility of IEEE and digital Institutional Repository documents for the faculty members & researchers	1
4	DELL T110 II server Intel ( R) Xeon (for the IR of MES's IMCC)	1
5	Laptop DELL (Librarians cabin)	1
4	Laser Printer (HP LaserJet M1005, having document scanning & Xerox facility) connected in networks for printing bar codes & reports.	1
5	EPSON L 565 Printer (Scanning printing and Xeroxing)	1
6	Laser Printer (HP LaserJet 1018, connected in networks in Librarians cabin)	1
7	Zebra ZXP Printer with ID making software connected in network for printing I cards & Readers Tickets.	1
8	Bar Code Reader LS203	1
11	Bar Code Reader MS5145	1
12	UPS system	
13	Lamination machine for the lamination of Reader's Ticket of Users	

## Library Collection As on Date (28/7/2017)

## WHAT IS NEW?

### KOHA Project

The MES is very focused for developing the effectivity of the library services provided in the educational institutions under its umbrella. During the last year the decision for KOHA application was taken by MES including the schools and the higher educational institutions in the professional educational streams. The project basically included coordination and execution of the activities focusing entire preparatory work of the databases of libraries collection involved in KOHA project involving even the library classification work, database formating and aligning the accessioning work and data migration as well in these libraries. During the second stage the WEB Libraries OPAC designing of MES is done for effective accessibility. The library databases of MES involved in the project can be accessible through the web now. The current arrivals, status of the document, collection and availability can be easily accessed through this MES Libraries Web OPAC.

### Execution work: MES KOHA Project

- Preparation of the database: Monitoring the progress, Preparation of the common excel format for sharing the data for the member libraries and circulation
- Chalking out the deadlines of the work and getting the work done as per the requirement, follow up and completion of the work
- Preparing the online contents for MES OPAC
- Mapping the classification numbers for the collection for the MES Member libraries
- Trace out the problems faced by the member libraries involved in MES KOHA project and take the required action to solve the problems

## OPAC: MES Libraries

MES KOHA OPAC

MES KOHA Modules

MES KOHA Circulation Module

MES KOHA Acquisition

MES KOHA Administartion

## Digital Library Section

The library has developed a digital library section for the entire user community, especially the student segment. The digital library section provides access to the online databases and IMCC's Digital Institutional repository which consists of accessibility of the Summer Projects in e-format, question papers, syllabi, prints of the research papers etc. It has now focused on building up the photo collection of the organization. Digital Institutional repository is accessible through the web-Id: <http://192.168.2.156.8080/jspui>

## Library expansion

An extension of the IMCC library has been done during this year for accommodating the expanding collection and specially to provide the additional space to the students to cater to their varied needs.

A special discussion hall is provided to the students for the project discussions. Apart from that, a research cell is designed for the research scholars and the guides in the research centre. The library also has created now Vivekanand section for the readers ; the section includes a special collection on Vivekanand.

A faculty cell is also created for providing additional space for reading to the faculty members in IMCC. Thus the newly designed structure of the library is as follows:

Sr.	Description of the Unit	Sr.	Description of the Unit
<b>First Floor</b>		<b>Second Floor</b>	
1	Library Stacks & Circulation section	1	Reading Hall-2
2	Library Admin Block	2	Faculty Cell
3	Librarians Cabin	3	Research Cell
4	Document Processing Unit	4	Vivekanand Section
5	Reading Hall-1	5	Reference Section
6	Digital Library Section	6	Store Room
7	OPAC		Terrace
8	Display	7	Terrace garden
9	Periodicals section		
10	Hall reading Section		

During the last academic year, the entire collection of the books is rearranged by redesigning the shelving plan. The collection is now rearranged to accommodate newer subjects and the books purchased and to create more ease of use to the library users. Accordingly the guide boards are reworked and mounted.

## LIBRARY ACTIVITIES

### User Orientation

The basic purpose of this activity is to raise the awareness level of the newly entrant students regarding the library services, resources and the library rules and regulations for maximizing the usage of library. Library Orientation for freshers was conducted during the academic year 2017-18.

The library staff provides guidance to locate reading material and also to locate proper information from the library collection which helps the users in quick retrieval of the documents.

## Library Kit

The library every year distributes the "Library Kit" to the newly entrant students consisting of manuals of Library Facilities and Services, Library Rules, along with current year Borrowers Tickets. It facilitates users to get acquainted with the library environment.

## BEST PRACTICES

The library has focused Benchmarking Technique followed by Continuous Improvement Principle. It has adopted innovative library services which are the best. The Libraries are coping up the present scenario.

## Training to LIS-professionals in MES Institutions

IMCC has conducted 2 days KOHA Library Software training program for the select LIS professionals in the MES Institutions on 23rd and 24th November, 2017. The time scheduled was from 10.00 am to 5.00 pm in the MCA Lab of MES's IMCC, at Mayur Colony Kothrud, Pune

The training was attended by a total 11 candidates from the 6 academic institutions of MES.

1. MES, Institute of Management and Career Courses (IMCC) , Kothrud
2. MES, Nursing College, Chiplun
3. MES Ayurved Mahavidyalaya Chiplun
4. MES, Adya Krantiveer Vasudev Balvant Phadke Vidyalaya, Raigad
5. MES English Medium School, Baramati
6. MES Balshikshan School, Mayur Colony

On the first day, the modules mainly acquisition, administration, serials, cataloguing, web-opac were considered and training was given for the implementation of the same. On the next day the modules such as circulation, web-opac and serials were focused for the purpose of training. The training programme initiated with an Inaugural function and the chief guest was Dr Santosh Deshpande, Secretary, MES. The programme was inaugurated by Dr Mrs Meenal Oak, Coordinator, KOHA Project MES and Ms Triveni from Informatics, Bangalore. Dr Mrs Meenal Oak offered a warm welcome to the participants. During the inaugural programme session, the present scenario in the libraries of academic institutions of MES was studied in the light of automation by KOHA. The coordinator advised the participants for the entire participation in the KOHA project as far as data uploading was concerned. Dr. Santosh Deshpande provided valuable suggestions time to time as far as the KOHA Project was concerned. On the second day after the training sessions, the valedictory session was conducted at the end of the programme. Dr. Vikas Inamdar was the chief guest for the session. He highlighted the importance of library automation and the newly evolved autonomous programs of library science in MES IMCC. Dr. Meenal Oak highlighted various mile stones in the process of library automation in MES institutions from the beginning to as on date.

After the session, the coordinator of MES KOHA Project Dr Mrs Meenal Oak, chalked out the future mile stones to achieve. The programme ended with the feedback session of the participants, where the requirements difficulties were discussed along with the necessary action plan.

## Continuous assessment :

The Library has focused on continuous assessment of the library services by using the LIBQUAL+ technique. The users' responses are regularly collected and the feedback analysis is done every year for the last 7 years by using the questionnaire technique as well as through informal discussions and observation technique.

Efforts have been made to implement the suggestions of the user segments.

## Effective use of ICT: open source library software application

The accessibility to information and the changing user expectations due to ICT has a tremendous impact on the libraries. The IMCC Library is continuously adopting the newer ways to cope with the changing scenario and particularly the extended and everchanging expectations of the tech-savvy users of computer and management science. The Library is rendering presently the services through the effective use of technology such as rendering services through the cloud computing technique which includes effective utilization of KOHA open source library automation software, digital institutional repository –use of d-space open source library software, on-line accessibility of the databases on the campus, research orientation, plagiarism testing, computerised SDI, Internet search for 12 hours on the working days of the institution.

## Utilization of social networking:

The library is now utilizing the social networking sites such as facebook, google pages for developing the library blog and the FB page to stimulate the use of the library and to create a strong communication link with the IMCC alumni members.

## Use of "turnitin": antiplagiarism policy :

The Ph.D. research Centre of MES's IMCC is equipped with the required software "turnitin", and the MES's IMCC Library is playing a vital role in quality testing and originality using the turnitin software to the research papers of MES's IMCC through the report of originality. As Savitribai Phule Pune University has adopted anti-plagiarism policy to detect instances of plagiarism and thereby prevent the students from publishing, presenting and copying others' research work as their own.; all the Ph.D. and M. Phil students are therefore required to attach original report of the Turnit-in Software before submission of the thesis to the Admission Section or Submission of Dissertation to the concerned research centre. The report is now one of the important requirements for initiating the further assessment procedure.

## RESEARCH ACTIVITIES

### Research Publications

3. Oak, Meenal. "Managing Library spaces: meeting the challenges in the Indian Management Institutions." Paper presented in National Conference on Enhancing the role of the Library in Teaching and Learning, Pune, 24 -25 January 2017.

#### Sessions conducted as a Resource Person

During the academic year 2017-18, Dr. Mrs. Meenal Oak Librarian, IMCC was invited as a Resource Person to Jayakar Knowledge Resource Centre of Savitribai Phule Pune University. She delivered a talk on "Library service quality and User satisfaction" during the UGC sponsored refresher course organized by Jayakar Knowledge Resource Centre (formerly Jayakar Library) on 30th August 2018.

The course was attended by the college librarians in India. It was a very interactive session including various aspects of service quality.

*Dr Mrs Meenal Oak as an invited speaker with the refresher program participants in India at Jayakar Knowledge Resource Centre of Savitribai Phule Pune University*

### **Session conducted in MES's Abasaheb Garware College of Arts & Science, Pune**

Dr Mrs Meenal Oak was invited as a Resource Person by the Dept. of Computer Science Abasaheb Garware College of Arts and Science, Pune to conduct a session on 14th February 2018 on "Web Search: efficient use of e-resources" for the students and the faculty members of Computer Science Department. The session focused on the utilization of free and paid e-resources by the students and faculty members on the campus.

### **Session on Best Library Practices in AIKTC**

Anjuman-I-Islam's Kalsekar Technical Campus (AIKTC), New Panvel, Mumbai invited Dr Mrs Meenal Oak as a Resource Person to conduct a session in a one day seminar on "Best Practices in Library & Information Centres" on 10th March 2018. The session was attended by the Librarians in Maharashtra with the basic objective of understanding the best library practices.

*Felicitated by DR Abdul Razak A Honnutagi, Director AIKTC and  
DR Abdul Razak A Honnutagi, Director AIKTC*

### **Invitation as a Chief Guest by Pimpri Chinchwad College of Engineering and Research**

Pimpri Chinchwad College of Engineering and Research invited Dr Mrs Meenal Oak as a Chief Guest to conduct a session on "Effective accessibility of library resources" for the first year engineering students in the college for improving the utilization of e-resources on the college campus.

with Dr Kanse, HOD & Mrs Rupali Sonawane, Librarian of the Pimpri Chinchwad College of Engineering and Research

Felicitation by the Principal, Pimpri Chinchwad College of Engineering and Research Dr Tiwari

During the speech on "Effective accessibility of library resources" on the campus of Pimpri Chinchwad College of Engineering and Research

## MES IMCC'S AUTONOMOUS PROGRAMMES FOR LIS PROFESSIONALS

MES IMCC took lead and launched 2 programmes namely SET/NET Training Programme and Post Graduate Diploma in Digital Library Management, Automation & Networking (PGDLIMAN) an autonomous post graduate programme for the LIS professionals particularly in the Maharashtra state.

### SET/NET Training Programme

IMCC started the SET/NET training programme from the year 2015. The 6th batch of the SET NET training programme started from 12th August 2018. The basic objective of this programme is to provide proper guidance to the fellow library professionals, and prepare them for the SET/NET Examination by the systematic conduction of the theory and MCQ's sessions. Enthusiasm and quest for knowledge of earlier batches has encouraged us to continue with our efforts of providing training for SET/NET examinations for the benefit of the library science profession. The candidates are registering not only from Pune but also from all over Maharashtra such as Mumbai, Bhusawal, Aurangabad, Shegaon, Nashik, Ahmednagar, Mangaon, Solapur, Bhusawal and various places near Pune as Manchar, Baramati, Khed etc. As on today, total 19 candidates of the programme have qualified the SET/NET examination.

This programme is designed and coordinated by Dr Mrs Meenal Oak.

## Qualified Attempts of the Successful candidates of the MES IMCC's SET/NET Programme

## **PGDLIMAN**

IMCC has launched the Post Graduate Diploma in Digital Library Management, Automation & Networking (PGDLIMAN) in September 2017. It is an autonomous programme of MES's IMCC. It aims at developing the professional competencies of the library and information professionals in an automated and digital library networked environment. The first batch successfully completed the programme; the second batch is being conducted in the centre.

The program focuses on in-depth practical sessions for building the technological skills of the students supported by required sessions on the theory, in order to develop them as an independent library manager who will manage the library in the new era successfully. The Libraries today are impacted tremendously by the digital and networked environment. ICT has a major impact on the storage functions and delivery of information in the library. The task ahead is a major challenge to handle the voluminous data in the digitized form and to manage it successfully for serving the user segments in an effective manner.

The objectives of the programme are to imbibe knowledge of the basic requirements of library automation and automated library services with the major focus on Open Source Library Software systems such as D-space and KOHA; to provide knowledge and skills on networking and Internet technology in particular to the library and information networks; to develop the Internet skills with special focus on the information resources available in different forms and subjects; to provide the knowledge and skills of web designing and legal issues associated with electronic information; to enable to design and develop a programme by enhancing skills on programming based on the language C++; to undertake a practical based project in order to specialize in one of the thrust areas on library automation and networking.

The Programme is of high benefit to the qualified Librarians and all other working library professionals as well as the budding LIS candidates interested in upgrading the ICT knowledge, skills and its effective application in the current automated and networked library environment. The programme is open to candidates with a minimum Bachelor's Degree in Library and Information Science (BLISc).

Dr Mrs Meenal Oak is the Coordinator of the programme.

### **YCMOU STUDY CENTRE**

Since last year the MES's IMCC has been approved as a YCMOU centre to run the academic programs in the Computer and Library science. Many candidates from Maharashtra contacted to conduct the LIS programs in Marathi medium as well. In response to the students need a proposal to YCMOU programs B Lib I Sc and M Lib I Sc was sent. The center has received a positive response as expected, considering the LIS background work of IMCC in Maharashtra. The centre now runs B.Lib.I.Sc., M.lib.I.Sc., BCA programmes of YCMOU in IMCC.

### **IGNOU STUDY CENTRE**

The centre was established in 2014 (September). Dr Santosh Deshpande is working as the Head of the IGNOU SC 16142 and Dr. Mrs. Meenal Oak took the charge of IGNOU Study Centre -16142 from January 2015 as a Study Centre Coordinator. The system and the entire administrative procedures of the Study Centre 16142 of IGNOU are streamlined and regularised as per the norm of the IGNOU, New Delhi. The Study Centre 16142 of IGNOU forms an important part of overall structure of the University designed to provide extensive and efficient student support services to its learners. The Study Centre is established to offer students a 'Kit of communication channels to supplement contents of the course in the form of print material mailed to them and enable them to interact with academic counsellors and fellow students as also to provide access to modern technology through the use of audio-visual aids. Thus, a Study Centre seeks to help the students in independent learning by means of appropriate forms of educational technologies.

The study centre IGNOU 16142 is equipped with relevant course material, reference books, audio-visual aids integrated with the course material. The Study Centre arranges to extend these facilities to all the learners attached to it on specific days decided by the Coordinator. The required assistance is provided to the students by the Study Centre so as to help them take the maximum benefit of these facilities. Regular week-end counselling takes place at Study Centre and hands on practical exposure is also provided to learner at practical centres.

The IGNOU Study Center 16142 runs MBA, MTTM, MLIS, BLIS, BTS, BCA, CBS, CIT, CNM, PGDLAN programmes. During the last academic year CLS (Certificate programme of Library Science) was introduced in the study centre. As on date, total 835 learners are studying from the IGNOU SC 16142 of MES IMCC, Pune

## MISSION AND VISION OF THE INSTITUTION

### MISSION

The pre-amble of IMCC "FACTA-NON-VERBA" lucidly means that the institute undertakes the mission to produce new breed of professionals who's deeds will speak and there could be no requirement of pomposity. The zooming enthusiastic rationale and excellent external endeavors are being imbibed in the students to prove their mettle.

### VISION

IMCC's vision is to be a top - ranking management institute not only nationally but internationally. Institute envisions to produce managers with entrepreneurial vision who would be the assets in knowledge Economy. Such students would propagate ethical, moral and spiritual values in the society.
